SKILLS

PROGRAMMING
Over 5000 lines:
JavaScript • TypeScript • JSX • HTML
CSS
Over 1000 lines:
Java • SQL
Familiar:
Python

TECHNOLOGIES/DOMAINS
React • NodeJS • PostgreSQL •
MongoDB • GraphQL • REST API •
Auth0 • OOP • MVC
Git • Jira • Slack

LANGUAGES
English: Fluent
Arabic: Native
German: Elementary

EXPERIENCE

COFORMATIQUE | Full-Stack Web Developer, Full-Time
Jul 2021 - Present | Cairo, Egypt
- Worked as both a front-end developer on a project where I helped build a CMS from scratch using React, and a back-end developer where I helped write and maintain a NodeJS server codebase for a major FinTech project (Calqulate)

- Technologies: React - NodeJS - AWS - GraphQL

WEBGEN | Back-end Intern
Jul 2020 – Aug 2020 | Cairo, Egypt
- During this training, we were working on developing the back-end for several projects using AWS services (DynamoDB and Lambda Functions), besides using Google API in several tasks.

- Technologies: NodeJS - AWS - Google APIs - HTML&CSS

ARKDEV | Web Developer Trainee
Jul 2019 – Aug 2019 | Cairo, Egypt
- During this training, we developed a Full Website for Courses Registration System, I was responsible for the system's back-end. Cooperated with other teams (Front-end team - Mobile Development team).

- Technologies: MYSQL - PHP

PROJECTS

- **CALQULATE** | Back-end Developer
  I recently joined this project and I started by helping my team migrating from using GraphQL queries on Hasura to writing typescript Lambda Functions that uses an ORM (Knex)

- **AKALAT** | Full-Stack Developer
  Built the CMS used for data entry and manipulating what to be shown in the home page of the mobile app.
  Built the web version of Akalat Application
  Managing the Hasura PostgreSQL database

- **SHORYAN (GRADUATION PROJECT)** | Full-Stack Developer
  Built the Back-end of the project using NodeJS and MongoDB, providing APIs for the mobile team & building the web version of the app.

COURSES

- React - The Complete Guide (Hooks, React Router – 47.5 hours)
- The Complete 2020 Web Development Bootcamp (HTML, CSS, JavaScript, Node, MongoDB - 54 hours)
